The first two books in the richly atmospheric and chillingly plausible Alec Milius series announced the arrival of Charles Cumming as heir apparent to masters like John le Carré and Len Deighton. A SPY BY NATURE Alec Milius is young, smart, and ambitious. He also has a talent for deception. He is working in a dead-end job when a chance encounter leads him to MI6, the elite British Secret Intelligence Service, handing him an opportunity to play center-stage in a dangerous game of espionage. In his new line of work, Alec finds that the difference between the truth and a lie can mean the difference between life and death--and he is having trouble telling them apart. Caught between British and American Intelligence, Alec finds himself threatened and alone, unable to confide in even his closest friend. His life as a spy begins to exact a terrible price, both on himself and on those around him. A SPY BY NATURE tells the gripping story of a young man driven by ruthless ambition who finds himself chasing not just success, but survival. THE SPANISH GAME Six years ago, Alec Milius was released by MI6 after a disastrous operation. His world shattered, Milius has been living in Madrid, attempting to quietly rebuild his life. But all his plans come crashing down when the head of a separatist movement goes missing, and Milius is lured back into the world of espionage. This time, though, Milius is forced to work alone - with no back-up, no support, and no one to save him should something go wrong. And in an operation like this, something is

certain to go wrong. Horribly wrong.

In the lightning-paced sequel to *The Icon Thief*, Europe's turbulent past and terrifying future are set to collide in the streets and prisons of London—and beyond. Rachel Wolfe, a gifted FBI agent assigned to a major investigation overseas, discovers that a notorious gun runner has been murdered at his home in London, his body set on fire. When a second victim is found under identical circumstances, the ensuing chase plunges Wolfe and her colleagues into a breathless race across Europe, a secret war between two ruthless intelligence factions, and a hunt for a remorseless killer with a deadly appointment in Helsinki. At the heart of the mystery lies one of the strangest unsolved incidents in the history of Russia—the unexplained death of nine mountaineers in the Dyatlov Pass five decades before. And at the center of it all stands a figure from Wolfe's own past, the Russian thief and former assassin known in another life as the Scythian...

Kingdom of Pawns takes Alec Caldwell into Florida's Everglades in search of a former CIA colleague who, on a covert mission to locate a small group of terrorists reportedly hiding there, has gone missing. Caldwell finds his colleague, close to death, but the suspected terrorists escape. Evidence left in their hurried departure suggests that they may have been developing a Saran gas bomb, classified by the U.N. as a Weapon of Mass Destruction. Are these terrorists planning to target large numbers of innocent citizens in a nationwide jihad, designed to break the will of the people to resist their imposition of Shariah law in the U.S.? Or, is their goal to strike the initial blow in the U.S. for a worldwide jihad designed to eliminate most of the leaders of the free world and throw their economies into chaos as their radical Islamic movement engulfs everything in its path? And, who is behind this suspected jihad? Can Caldwell stop this radical cleric from carrying out his evil plan? Or, will the free world, as we know it today, cease to exist?

Alec Tomlin; or, choose wisely Apollos

"This impressive collection-- a high-water mark in the graphic novel's short history-- confirms that no one else in the medium combines emotional truth, literary intelligence, and formal daring with such adroitness and elegance." -- Booklist (starred review) "Witty and thoughtful ... a great and epic comic documentary novel like no other."-- Publishers Weekly (starred review) "The fact that we are finally able to watch young Alec slowly evolve, page by page, from a cheeky wastrel into a mature artist

deeply committed to his work and his family is nothing less than a revelation ... the three decades of mature, complex and emotionally compelling work compiled here represent a major accomplishment in comics storytelling, and in storytelling, period. It's nothing less than a modern epic of the everyday."-- Glen Weldon, NPR "A profound piece ... Campbell makes it feel like the greatest adventure imaginable."-- Alex Pappademas, GQ "Campbell's art develops into a heroism of the freed line: like the blade of a skater, his pen achieves a precarious and delicate grace that should be recognized as a landmark in the history of comics."-- Rain Taxi Review of Books "Eddie Campbell's Alec stories were among the first of the modern era of autobiographical comics, and they still rate among the best-- witty, brilliantly illustrated, self-mocking without ever being mopey or pathetic, and most importantly, forever changing style to suit the needs of the story... Watching Campbell's storytelling and approach to art progress and evolve as these stories unfold is as close as you can get to watching a real human life change on the page. One of the must-own releases of the year."-- The AV Club "If autobiography is the lingua franca of the graphic novel form, Campbell is its undisputed Shakespeare."-- Richard Pachter, Miami Herald "ALEC is magic, and even if I knew how all of it was done I'd be doing you a disservice if I pointed out the wires and mirrors. ... It is written by someone who obviously finds being alive an endless source of novelty and conundrum."-- Alan Moore "Do you need me to tell you how good Eddie Campbell is? Or that ALEC is probably the best book-length comic about art and wine and midlife crises and families and friends and wine and love and art and saying goodbye and terror there is?"-- Neil Gaiman DESCRIPTION: For the first time ever, the groundbreaking autobiographical comics of master cartoonist Eddie Campbell (FROM HELL) are collected in a single volume! Brilliantly observed and profoundly expressed, the ALEC stories present a version of Eddie's own life, filtered through the alter ego of "Alec MacGarry."Over many years, we witness Alec's (and Eddie's) progression "from beer to wine"-- wild nights at the pub, existential despair, the hunt for love, the quest for art, becoming a responsible breadwinner, feeling lost at his own movie premiere, and much more! Eddie's outlandish fantasies and metafictional tricks convert life into art, while staying fully grounded in his own absurdity. At every point, the author's uncanny eye for irony and wry self-awareness make even the smallest occasion into an opportunity for wit and wisdom. Quite simply, ALEC is a masterpiece of visual autobiography. ALEC: THE YEARS HAVE PANTS (A LIFE-SIZE OMNIBUS) collects the previous Alec books THE KING CANUTE CROWD, GRAFFITI KITCHEN, HOW TO BE AN ARTIST, LITTLE ITALY, THE DEAD MUSE, THE DANCE OF LIFEY DEATH, AFTER THE SNOOTER, as well as a generous helping of rare and never-before-seen material, including an all-new 35-page book, THE YEARS HAVE PANTS.

Alec Kerley and the Wrath of the Vampire Alaban Press

From an award-winning civil rights lawyer, a profound challenge to our society's normalization of the caging of human beings, and the role of the legal profession in perpetuating it Alec Karakatsanis is interested in what we choose to punish. For example, it is a crime in most of America for poor people to wager in the streets over dice; dice-wagerers can be seized, searched, have their assets forfeited, and be locked in cages. It's perfectly fine, by contrast, for people to wager over international currencies, mortgages, or the global supply of wheat; wheat-wagerers become names on the wings of hospitals and museums. He is also troubled by how the legal system works when it is trying to punish people. The bail system, for example, is meant to ensure that people return for court dates. But it has morphed into a way to lock up poor people who have not been convicted of anything. He's so concerned about this that he has personally sued court systems across the country, resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional. Karakatsanis doesn't think people who have gone to law school, passed the bar, and sworn to uphold the Constitution should be complicit in the mass caging of human beings--an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never

offered sufficient justification. Usual Cruelty is a profoundly radical reconsideration of the American "injustice system" by someone who is actively, wildly successfully, challenging it.

William di Canzio's *Alec*, inspired by Maurice, E. M. Forster's secret novel of a happy same-sex love affair, tells the story of Alec Scudder, the gamekeeper Maurice Hall falls in love with in Forster's classic, published only after the author's death. Di Canzio follows their story past the end of Maurice to the front lines of battle in World War I and beyond. Forster, who tried to write an epilogue about the future of his characters, was stymied by the radical change that the Great War brought to their world. With the hindsight of a century, di Canzio imagines a future for them and a past for Alec—a young villager possessed of remarkable passion and self-knowledge. Alec continues Forster's project of telling stories that are part of "a great unrecorded history." Di Canzio's debut novel is a love story of epic proportions, at once classic and boldly new.

Clarke's latest work unfurls to a story of romance where a couple born of the west and educated as journalists find life together in love of investigative and photojournalism. Their adventures take them around the world and back to the valley in the west where the Blue Mountains in the distance welcome them. It is a tale of Kate growing up in a western valley where she meets Alec as a new member of the high schools jazz band transferring from a private school. She realizes he is the young boy she knew in grade school and the one from the rich family who lived in the large stone house on the bluff south of town. They graduate and go off in different directions with their journalism degrees, travelling the world and receiving merit for their work. They meet again and fall in love.
